

I am a wife, homeowner, business owner, stepmother and nearly 3-year resident of Wildomar. Since moving here, I have seen a strong push to grow our city without regard for improvement or safety of the community, neighborhoods, schools or local businesses.

Our city is facing many challenges without plans to fix or make improvements. I want to work with residents and lawmakers to address the low/no income housing and home shelters going in (which is impacting our schools and neighborhoods), the ongoing septic issues, flooding and lack of attention to our roads and community safety.

My goal is to ensure our voice is consistently heard to shape and improve District 4.

#### Key Issues:

- Low/no income housing
- Residential Homeless Shelters
- Resident rights
- Septic Issues
- Road and community flooding
- Road improvements
- Community safety
- Effective communication outreach

As a 25-year communication executive, building and implementing corporate strategies, I want to improve how the city communicates with their constituents to a more personal and direct approach. It'll be about listening and understanding the issues so we can find solutions or work with necessary stakeholders that can actually help.

Vote for Karen Ellison for District 4. It's Time for Change!
